DETAILED ACTION

Response to Amendment

1. The present Office action is made in response to the amendment filed on 9/26/05. It is noted that in the amendment, applicant has made changes to the specification, the drawings and the claims. It is also noted that applicant has filed a new abstract.

Regarding to the claims, applicant has amended claims 1, 5, 7 and 13 and canceled claims 8-12. The remaining claims 1-7 and 13 are examined in this Office action.

Drawings

2. The drawings contained four sheets of corrected figures 6, 6A, 10 and 10A were received on 9/26/05. These drawings are approved by the Examiner.

3. New drawings for each of figures 6, 6A, 10 and 10A in compliance with 37 CFR 1.121(d) are required in this application because applicant has not provided a Replacement Sheet for each of corrected figures 6, 6A, 10 and 10A filed on 9/26/05. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Specification

4. The lengthy specification which is amended by the amendment of 9/26/05 has not been checked to the extent necessary to determine the presence of all possible

minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

While the applicant has amended the specification in section [0030]; however, applicant has not changed/amended the misuse of the reference on the second occurrence.
